### TORNADO DEATH LIST INCREASES ARE LATE REPORTS

(Continued from Page One)

and many of these, it is said, cannot survive.

Heber Springs, a resort town of 1,000 inhabitants on the Missouri & North Arkansas railroad, suffered most severely. Twenty-five persons were killed and more than 100 injured. Eight of the injured are believed likely to die. The storm swept up a steep hillside in the western part of the town, demolishing twenty homes. Most of the dead were killed in the ruins of their homes.

It is feared that the list will grow as communication is restored and remote communities are heard from. A telephone message from Conway to night said it was reported that 40 were killed or injured at Cato, near there, but it was impossible to get in communication with that town.

Near Delark, in Dallas county, the entire family of Mr. and Mrs. William Woomack perished in the storm including their two daughters and one son. Robert Woomack, a nephew started for Delark to buy coffins for the five bodies. He never arrived and

### COUNT OKUMA IS NOT ASSASSINATED

TOKIO, June 6.—The report circulated in the United States yesterday that Count Shigeno Okuma, the Japanese premier minister, had been assassinated was without foundation. The secretary of Count Okuma said this morning that the premier was hale and hearty and that he was then in conference with the emperor.

It is believed he was drowned in crossing a swollen stream.

### Thirty or More Dead

POPULAR BLUFFS, June 6.—Thirty or more persons were killed and at least 75 were injured in a storm that swept this section today. The damage to crops and buildings is estimated at hundreds of thousands of dollars.

The storm first passed through Oley, where several barns and light buildings were torn from their foundations. At Stoddard, however, the storm had gained in intensity, and in addition to those killed three persons were injured so seriously they are expected to die.

William Simpson and wife, of Poplar Bluffs, who were killed, had passed the night at Stoddard after attending the funeral of Mr. Simpson's mother, held there Monday.

Two men injured at Stikeston probably will die. They were struck by flying timbers.

Bud Bond, of Bernie, was killed by lightning while asleep. His wife was uninjured.

Owing to crippled wire service the news of many reported deaths in the rural districts cannot be obtained. The storm was general and it is feared later reports will show heavy loss of life.

At Stoddard, 20 miles east of here, seven were killed and two injured seriously. At Moorehouse, thirty miles east, two were killed and nine hurt.

### Death Toll of Fifteen

JACKSON, Miss., June 6.—Fifteen persons killed, more than 75 were injured and property damage estimated at \$500,000 was the toll of the tornado which whirled through Central Mississippi early today.

Twelve of those killed lost their lives when the storm swept a path 100 yards wide through the residence section of Jackson, demolishing or damaging more than 250 houses. Two of the dead here were white persons, Mrs. Annie Jellie, an aged woman, and Walter De Mott, a youth.

Three white persons, Mrs. F. H. Russell, her child and Thomas Miller, her uncle, were killed when their home was wrecked. The others killed were negroes.

A number of small towns in Warren, Jasper and Holmes counties reported property damage.

### Thirty Are Drowned

MEMPHIS, June 6.—At least thirty persons are believed to have been drowned when the river packet Eleonore capsized in the Mississippi twenty miles north of Memphis last night in the storm which swept the central Mississippi valley. Of approximately 75 passengers and crew on the steamer when it was overturned by the wind only 15 have been accounted for.

The Eleonore tied up last night in a remote spot to escape the tornado that swept the Central Mississippi valley. A heavy gust of wind drove the craft into the bank and it overturned. Many of those aboard were in the cabins and between decks at the time. A relief vessel left for the place of the accident tonight. The Eleonore was a small vessel.

### Preaching Session

CHIHUAHUA CITY, June 6.—A Mexican giving his name as Luis Sanchez Mena, was arrested by military authorities here today on a charge of attempting to obtain promises from other Mexicans to aid Americans in the event of a Mexican intervention. Military authorities say Mena, confessed and that he is being held for trial by court martial. Efforts to obtain further details of the case are futile.

Reports here today from Major Leopoldo Trevino, in the Laguna district tell of the execution of Pedro Jacques and Arcadio Luna, caught looting ranches three weeks ago, while General Jesus Novoa reported from San Pedro that six men of the de la Barra band, whose leader was shot publicly at Escalon last month, have surrendered with their arms. Other reports received from General Ignacio Ramos said that after a short skirmish, bandits under the late Villalaz general, Beltrán, who were driven out of the Rio Florida district, had taken refuge in the passes of the Cerro Del Pino.

General Trevino today issued orders to General Carlos Ozueta to move his headquarters and part of his forces to Lampazos Caba, leaving General Garcia Vigil as chief of arms in Monterey.

### Another Raid Expected

SAN ANTONIO, June 6.—General Funston announced today that he had what appeared to be positive information that Luis de la Rosa was marching from a point south of Laredo in the direction of the border with the evident intention of raiding the country somewhere west of Rio Grande city.

There are not now in that district enough American troops to prevent de la Rosa and his men from crossing. General William A. Mann, commanding the American forces in that district with headquarters at Laredo, has reported to General Funston that he is taking such measures as possible to strengthen the patrol towards the east and to guard Laredo.

To the east of Laredo in Zapata county, across whose southern boundary de la Rosa is expected to move, the American strength is only one troop of cavalry.

At just what point on the border line the Mexicans intend to strike was not learned and it was not announced just how far away they were today, but they were said to be comparatively near.

If de la Rosa and his men reach the Rio Grande before American troops can head them off, enough force will be sent against them to drive them back into Mexico and, it was intimated, to run them down on Mexican soil.

De la Rosa was one of the leaders of the group that directed the raid west of Brownsville a year ago. Since then

## MEXICAN MONETARY CRISIS SAID BY OFFICIALS TO BE VERY ACUTE

[Republican A. P. Leased Wire]

DOUGLAS, June 6.—Mexican officials, military and civil, declare that the present monetary crisis in Sonora is grave and unless immediate adjustment is obtained by General Calles anarchistic conditions are bound to ensue. General Calles was expected to reach Hermosillo today for a conference with Governor Adolfo de la Huerta, out of which there will come either a solution of the financial problems or a definite break between Calles and Venustiano Carranza, de facto president of Mexico.

The feeling in Agua Prieta and other parts of Northern Sonora is bitter against both Carranza and De la Huerta, who is recognized as Carranza's agent. Officers of the de facto army in Agua Prieta are quoted as saying if General Calles decides to break with Carranza he has more than 25,000 well armed men in Sonora and Northern Sinaloa who will follow him.

General Calles left Agua Prieta last night, unexpectedly, after spending Sunday and Monday sending many telegrams to Carranza and General Alvaro Obregón, Mexican minister of war.

Late Monday afternoon he came to a sudden conclusion, as he sent his bodyguard of one hundred men to Naco, Sonora, by automobile. At the same time he ordered a special train to meet him there. About midnight, without attending to several engagements he had previously made, he left hurriedly with his personal staff by automobile for Naco. Soon after his arrival there he boarded the train for Hermosillo.

Arrivals today from Chihuahua and Fronteras say that the de facto soldiers there are mutinous over being paid in the new Carranza currency. When the official paymaster visited the camps scenes of disorder followed. One captain, upon receiving his pay in the currency, tore it up, spat on it, then ground the pieces under his heel, cursing the paymaster, and demanding "real money," according to men who claim to have been eye witnesses.

The commissary department is also affected and the food reaching the troops is of inferior quality and small in quantity.

It is reported that General Calles will demand of De la Huerta that exchanges be established with ample funds to redeem all Carranza currency in gold, or that the customs houses shall be empowered to exchange gold and silver for the Carranza currency at ten cents gold on the peso.

The monetary situation was further complicated today by the receipt of a new decree ordering the retirement of all one hundred, fifty and twenty peso bills of former issues at five cents gold on the peso. They are worthless except for exchange after June fifth.

### Mexican Prohibition

DOUGLAS, June 6.—Thirty women residents of Naco were arrested today on the charge of selling liquor contrary to the Sonora state law.

If proven guilty, the women will serve a jail sentence of not less than sixty days, according to Ives G. Leleiver, de facto consul here.

Consul Leleiver said that a number of soldiers had been sent to Naco to work as detectives; the arrests followed. Similar "punitive expeditions" as General Calles termed them, were sent on orders from Calles to Cananea, Nogales, Hermosillo, Guaymas and other towns of the state where women were reported to be violating the prohibition law. Many arrests are expected within the next few days.

### Preaching Session

CHIHUAHUA CITY, June 6.—A Mexican giving his name as Luis Sanchez Mena, was arrested by military authorities here today on a charge of attempting to obtain promises from other Mexicans to aid Americans in the event of a Mexican intervention. Military authorities say Mena, confessed and that he is being held for trial by court martial. Efforts to obtain further details of the case are futile.

Reports here today from Major Leopoldo Trevino, in the Laguna district tell of the execution of Pedro Jacques and Arcadio Luna, caught looting ranches three weeks ago, while General Jesus Novoa reported from San Pedro that six men of the de la Barra band, whose leader was shot publicly at Escalon last month, have surrendered with their arms. ### Another Raid Expected

SAN ANTONIO, June 6.—General Funston announced today that he had what appeared to be positive information that Luis de la Rosa was marching from a point south of Laredo in the direction of the border with the evident intention of raiding the country somewhere west of Rio Grande city.

There are not now in that district enough American troops to prevent de la Rosa and his men from crossing. General William A. Mann, commanding the American forces in that district with headquarters at Laredo, has reported to General Funston that he is taking such measures as possible to strengthen the patrol towards the east and to guard Laredo.

To the east of Laredo in Zapata county, across whose southern boundary de la Rosa is expected to move, the American strength is only one troop of cavalry.

At just what point on the border line the Mexicans intend to strike was not learned and it was not announced just how far away they were today, but they were said to be comparatively near.

If de la Rosa and his men reach the Rio Grande before American troops can head them off, enough force will be sent against them to drive them back into Mexico and, it was intimated, to run them down on Mexican soil.

De la Rosa was one of the leaders of the group that directed the raid west of Brownsville a year ago. Since then

he has been a fugitive in his own country with a price of \$1,000 on his head, offered by the state of Texas.

The information that reached General Funston indicated that de la Rosa would not be more than two or three days at the most in getting to the border. If raiders strike again there in Zapata county, little injury to the residents is anticipated because with the exception of one or two families all are Mexicans.

From the farmers a large number of horses and mules could be commandeered however. General Mann has at Laredo and in its vicinity one squad of cavalry, a regiment of infantry and a battery of artillery. It is from this force that he has dispatched additional patrols eastward.

Speculators accused of trying to cause a financial panic while the government is retiring the old issue of paper money are being arrested and prosecuted according to dispatches.

### Profitable Business

EL PASO, June 6.—An extensive plot for the counterfeiting of Carranza postage stamps has been discovered in Mexico City, the leader arrested and false stamps in the amount of six million pesos seized, according to information received from the Mexican capital tonight by the local Mexican consulate.

Speculators accused of trying to cause a financial panic while the government is retiring the old issue of paper money are being arrested and prosecuted according to dispatches.

### NEITHER PARTY HAS DECIDED ON CANDIDATE

(Continued from Page One)

most encouraging and predicted that the Hughes vote would grow rapidly after the preliminary ballot.

Florida decided during the day to cast her solid vote for Hughes and to stay with him to the end. A poll of votes is reported to give nine votes for Hughes.

From New Jersey Hughes managers expect to get at least 17 votes, the Rhode Island delegation of 10 is reported solid for Hughes and substantial gains were claimed in Connecticut and other states.

Disagreement among the Ohio delegates in caucus tonight resulted in withdrawal of a resolution proposing that the delegates at the caucus to vote for Senator Burton until released by him. Ohio delegates were divided regarding what effect the disagreement would have on Mr. Burton's candidacy.

Michigan's republican delegation in caucus tonight, decided to vote for Henry Ford in accordance with the expression of the state primary.

Another development in the favorite son situation was a statement by Senator Borah of Idaho that he did not believe his name would be presented. He said he had asked the Idaho delegation not to place him in nomination.

If a ballot could be taken tonight the following consensus of the several political managers indicated that it would be about as follows:

Hughes, 261; Weeks, 160; Roosevelt, 98; Cummins, 81; Fairbanks, 80; Burton, 70; Sherman, 58; Knox, 51; Root, 42; La Follette, 28; scattering, 57. Total, 983.

This excluded two delegates from the District of Columbia who were unelected by the national committee but who take their case before the credentials committee.

The allies generally conceded that Mr. Hughes was in the lead but the fact that he occupies this advantageous position was not allowed to stand in the way of their efforts to hold their forces in hand.

Their plan is to prevent an early stampede to the Hughes column, in the hope that delay may bring into the situation some new element which would weaken him and promote the prospects of some one of the other candidates.

All of the candidates were receiving favorable assurances from their friends, and in view of the situation thus created the general opinion is that several ballots will precede the nomination. This opinion is based upon the supposition that no surprises will be sprung and that all hands will be content to prolong the uncertainty.

Much speculation has been indulged in with regard to the effect of a positive pronouncement from Mr. Roosevelt. No one counts upon anything from him favorable to Justice Hughes but the day rather was characterized by expectation of a declaration contrary to that interest.

Many believe that such an expression would be fatal to Justice Hughes nomination because, they say, it would mean certain defeat at the polls. Some, however, advocate his nomination even in the teeth of disapproval by the former president. This element predicts the nomination of the jurist regardless of circumstances.

The progressive leaders are not hiding the fact that they are embarrassed by a lack of control over their delegates and they fear that they cannot delay a nomination in their convention until after the republicans have acted. When told of this situation republican managers have bluntly replied that this predicament is the progressives' own affair.

Although the progressive managers have been confounded by their delegates getting out of hand, they have capitalized the situation to the extent of using it as an argument with the republican managers for an early nomination in the "Coliseum." They have told the republicans that they fully realize uncontrollable qualities among the Roosevelt enthusiasts which they fear will result in the quick nomination of the colonel with the possibility of disrupting plans for a reunited party.

The republican managers reiterated that they cannot be held responsible for a condition which the progressive leaders have created and which now is plaguing them.

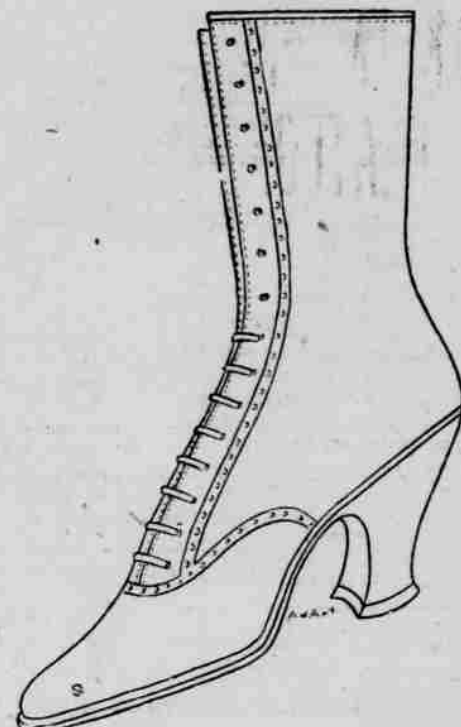

It developed today that there is a growing disposition to evolve a conservative progressivism as opposed to
